

LUXE PATIO DESIGN PORCELAIN PAVERS

COMPOSITION & MANUFACTURE

- Crafted by baking a blend of clay, sand, and minerals in a high-temperature kiln, creating a durable, non-porous material known as porcelain paving.

PERFORMANCE AND MAINTENANCE

- Non-absorbent (water absorption <0.1%)
- Quick, easy installation; easily dismantled, renewable, and reusable
- Resistant to frost, fire, salt, mold, stains, fading, impact, thermal shock, algae, and pesticides
- High breaking strength
- Easy to clean with water, a broom/mop, and dish soap
- Anti-slip surface (R11)

INSTALLATION

- Can be installed using low-profile pedestals (as low as 1/8 inch), ideal for condo balconies with tight floor lift requirements (less than 1 inch total lift).
- Also suitable for uneven membrane roofs, terraces, and backyard decks.
- Adjustable height pedestals available for higher lift needs.

SPECIFICATIONS

Tile dimensions: 24x24"x3/4"H

Pallet dimensions:31 1/2" x47 5/8" x28 1/2"

| Detail | QTY | Square feet | Weight(lbs) |
|------------|-----|-------------|-------------|
| Per tile | 1 | 4" | 34.39 |
| Per Box | 2 | 8" | 68.78 |
| Per Pallet | 64 | 248 | 2,315 |
