

LUXE PATIO DESIGN BALCONY TILES SPECS

Luxe Patio Design Composite Deck Tiles feature a capped wood plastic composite with a pure polyethylene outer layer and a core of recycled polyethylene and wood fibers. Formed at high temperatures without adhesives, the tiles are mounted on a polypropylene base, ideal for condos.

The robust outer shell resists stains, mold, mildew, rotting, splitting, cracking, and fading. Maintenance is simple, requiring only sweeping or mopping with dish soap to remove dust and debris.

The flexible, durable UV-stabilized polypropylene base allows for natural expansion and contraction. Interlocking tabs secure the tiles without glue, grout, or nails, adapting to surface contours. The open design promotes air circulation, with water and debris washing away underneath.

SPECIFICATIONS

- Tile dimensions: 12x24"
- 9.62 tiles per box
- 4.81 lbs per tile
- Total tile thickness: 0.89" (22mm)
- Slat width: 2.8" (71.5mm)
- Box weight: 24 lbs (10.8kg)
- Box dimensions: 24.5" x 12.4" x 8.98"
- 48 boxes per pallet
